This day is one of the most important dates, if not the most important, of the Albanian national history.

28 November the first marks the raising of the flag in the arboretum by Gjergj Kastrioti - Skënderbeu, the second of November marks the raising of the flag in Vlora by Ismail Qemali and the declaration of independence of the divided Albania. But November 28 has other values for us Kosovar Albanians, because on this date the birthday of the Legendary Commander Adem Jashari is marked, and in 1997, on this very date, the Kosovo Liberation Army appeared on the scene for the first time.

The celebration of the November holidays is not just a simple anniversary; it is the celebration of our being Albanian.

On this marked date, we bow before the work of our forefathers, for all those who fought and sacrificed themselves for the freedom and independence of our homeland.

Thanks to everyone who contributed to making this program so great! (26.11.2021)
